Freeman Orchid Company

Fall River, Mass.

Wellfleet, Mass.

New York Office: 14 Stone Street

Presented to the L. H. Bailey Hortorium
by the Missouri Botanical Garden, 1972.

SHIPPING INFORMATION

All plants carefully packed (with no charge for same) and shipped by Express unless otherwise ordered. Plants ordered by freight shipped in good order at buyer's risk. All shipments f. o. b. New York. Express charges on plants have been reduced to a minimum by all the Express Companies so there is little or no more expense and no risk in shipments all over the country.

Customers not rated by any Commercial Agency, or unknown to us, please send references with orders, or half payment for same.

ORCHIDS

GENERAL INFORMATION.

FRESH IMPORTED STOCK SEMI ESTABLISHED STOCK

THE LARGEST IMPORTERS IN THE COUNTRY. EXPERT COLLECTORS WITH MANY YEARS EXPERIENCE INSURE HIGH GRADE STOCK. ADVANCE ORDERS MAKE FOR LOW PRICES AND SECURE PROMPT DELIVERY AND EARLY RETURNS TO THE GROWER.

ORCHIDS OCCUPY LESS SPACE and give LARGER RETURNS PER SQUARE FOOT than any other plant under glass. Select varieties for their proper flowering season. ORCHIDS DO NOT GROW OR FLOWER OUT OF SEASON. Information gladly furnished free. Advance orders for any quantity filled promptly. One case or five hundred filled with the same care and attention.

WE DELIVER THE GOODS. CUSTOMERS ARE NOT DISAPPOINTED. Orders of 50 or more cases entitled to extra discount.

SEMI ESTABLISHED STOCK

EARLY SPRING IMPORTATIONS, well rooted for the season's flowering—the best for those who REQUIRE IMMEDIATE RESULTS, and who

are too late for the early Spring importations. OUR INFORMATION regarding early Spring importations has SAVED OUR CUSTOMERS, who have taken advantage of it, THOUSANDS OF DOLLARS.

NO CUT FLOWER HOUSES OF ANY KIND. QUALITY AND DELIVERY GUARANTEED F. O. B. NEW YORK.

CATTLEYAS

6 to 8 bulb plants . . .	per dozen	48.00
--------------------------	-----------	-------

Cattleya Gaskilliana

Considered the **finest mid-summer flowering Cattleya for cut flowers**, a rapid free grower, light pink sepals and petals, lip veined with dark magenta, grows in temperature of any other Cattleya. This very desirable Cattleya is growing **scarce in its native habitat** and like many of the family, the larger plants are becoming scarce for it grows in a small territory and the **demand** in the **last few years** has been large.

4 to 7 bulb plants . . .	per case	\$35.00
8 to 10 bulb plants . . .	per case	45.00
12 to 25 bulb plants . . .	per case	55.00

8 to 10 bulb plants . . .	per dozen	21.00
Semi established, 5 and 5 1-2 in. pots		
	per hundred	200.00

Grows in night temperature of 60°.

Cattleya Harrisoniae

Flowers in August, pink sepals and petals, cream white lip, width of flower 4 to 5 inches, grows in spikes of 7 to 8 flowers. As the **August demand for flowers** has increased this variety has become quite popular and the demand is good for cut flowers. Grows in night temperature of 60° Far. and is a free grower.

6 to 9 bulb plants . . .	per case	\$60.00
10 to 12 bulb plants . . .	per case	70.00
400 bulbs to the case.		
6 to 9 bulb plants . . .	per hundred	150.00
10 to 12 bulb plants . . .	per hundred	200.00
6 to 9 bulb plants . . .	per dozen	24.00
Semi established, 4 1-2 to 5 in. pots		
	per hundred	200.00

Cattleya Labiata

Flowers in October and November, sepals and petals are deep lavender with magenta lip, a **large flower** very much admired by the public, is the most uniform color of its family and **creates a demand wherever shown**. If this plant could be made to flower the year round there would be no demand for any other Cattleya in quantity. We again call your attention to the **rapidly diminishing supply of this plant**, the time now is short when there will be no more for commercial growing. We have been able to **fill all our orders satisfactorily** and promptly up to the present time and would recommend that growers who are interested in orchids should place their **orders in advance on this variety** for the coming year, that they may receive them early in their growing season. It is a free growing and a free flowering plant and grows in night temperature of 60° Far.

7 to 9 bulb plants . . .	per case	\$70.00
10 to 12 bulb plants . . .	per case	85.00

Semi established 4 1-2 and 5 in. pots,	per dozen	21.00
Semi established 6 and 7 in. pots	each	5.00

Cattleya Mendelii

The Queen of Cattleyas, **flowering in May**, sepals and petals of a delicate pink with a large finely fringed lip with deep magenta markings, yellow throat, flowers 8 1-2 to 9 inches across, night temperature of 60°. The supply of this Cattleya has been drained to such an extent that **many collectors do not deliver** and like Cattleya Labiata they have no means of collecting these scarce varieties. We have been able so far to fill all orders, but like the previous variety, we would ask that you **give the order early** that we make no mistake.

8 to 10 bulb plants . . .	per case	\$70.00
12 to 20 bulb plants . . .	per case	80.00

Cattleya Trianae

Flowers in December and January. This favorite for mid winter growth, both for cut flowers and private growth is the **great holiday Cattleya** and varies more in its colorings than any other of the family, from pure white with yellow throated lip to a dark violet color with crimson, magenta or blue in different plants. Flowers often reach 10 inches in width and is considered with **Cattleya Labiata** the two **greatest commercial varieties.** Grows in night temperature of 60°. With the large importations **this year** we are offering this plant at the following prices.

8 to 10 bulb plants . . .	per case	\$35.00
12 to 20 bulb plants . . .	per case	40.00
